 Hyderabad, India

PROFESSIONAL SUMMARY

Motivated **Software Engineer** with a strong foundation in **business process automation**, **system integration**, and **full-stack development**. Experienced in analyzing complex workflows, building secure REST APIs, and managing cloud infrastructure for enterprise applications. Skilled in **ERP implementation**, **customization**, and **ongoing development** for in-house business operations across multiple platforms. Adept at bridging the gap between technical solutions and business requirements, ensuring smooth **user adoption**, **data migration**, and **stakeholder communication**. Eager to apply technical versatility and problem-solving mindset to drive **enterprise system success** and **operational efficiency**.

SKILLS

ERP & Business Systems: ERP Implementation, Business Process Analysis, Requirements Gathering, System Customization & Configuration, Workflow Automation, Data Migration, User Training & Support

Development & Integration: Python, JavaScript, SQL, REST APIs, Postgres, AWS, Cloud Computing, Infrastructure as Code (IaC), Containerization, Load Balancing & Auto Scaling

Enterprise Tech Stack: React.js, Next.js, Node.js, Express.js, FastAPI, MongoDB, Numpy, Pandas

Cybersecurity & Compliance: IAM, RBAC, Encryption, Vulnerability Assessment, Threat Detection, SIEM

WORK EXPERIENCE

- Software Engineer Intern** March 2026 – Present
BLDAR Riyadh, KSA
 - Gained hands-on experience in software development lifecycles, requirements analysis, and translating business needs into technical solutions for 60+ complex workflows and 3+ distinct user personas.
 - Developed 50+ secure REST APIs, demonstrating strong proficiency in backend logic, data modeling, and system integration—key skills for enterprise system customization and third-party integrations.
 - Architected and optimized cloud infrastructure, reducing hosting costs through strategic migration while maintaining production reliability—showing adaptability in managing enterprise-grade systems.
- Freelance Web Developer** Jan 2023 – Present
Freelance Remote
 - Built custom websites, CRMs, and booking platforms for diverse businesses, managing projects from initial concept through deployment and ongoing maintenance.
 - Collaborated closely with clients to understand business requirements, gather feedback, and shape tailored digital solutions that improved operational workflows.
 - Architected scalable web applications using React, Node.js, and PostgreSQL, with cloud deployment on AWS for reliable, high-performance hosting.
 - Implemented automation solutions to streamline client business processes, reducing manual effort and increasing overall efficiency.

VOLUNTEER EXPERIENCE

- Volunteer Coordinator** Ramadan 2023 – Present
IEEE CIS Student Chapter Donation Drive Hyderabad, India
- Student Mentor & Peer Tutor** 2023 – 2025
Department of Software Engineering Muffakham Jah College of Engineering and Technology

ACHIEVEMENTS

- Hack Revolution:** *University Flagship Hackathon – 1st Place (2024 & 2025)*
- Interclub Football Tournament Winner:** *IEEE CIS Football Team - 1st Place, Interclub Tournament*

CERTIFICATIONS

- Microsoft Certified: Azure AI Fundamentals** : AI-901
- Microsoft Certified: Security Operations Analyst Associate** : SC-200
- Certified in Cybersecurity:** (CC) – ISC2 2664231

EDUCATION

- Muffakham Jah College of Engineering and Technology** 2026 | CGPA: 8.13
Bachelor of Engineering in Software Engineering Hyderabad, India
